DHARA PRAJAPATI

B.Tech Information Technology Student | AI/ML | Cloud Computing & System Design

ramanidhara2009@gmail.com | LinkedIn | GitHub

PROFILE

Second-year B.Tech Information Technology student at JG University, following completion of a Diploma in IT. Practical knowledge of AI/ML with project experience in web development and data analytics; currently expanding into Cloud Computing and System Design.

EDUCATION

B.Tech, Information Technology | JG University | Second year
Currently pursuing undergraduate studies after completing a Diploma in Information Technology.

Diploma, Information Technology | Government Polytechnic, Ahmedabad | 2023-2026
SPI: 9.33

School Education | Saraswati Vidya Mandir | 2022-2023
Percentile: 93.00

EXPERIENCE

Web Development Intern | Zidio Development | May-July 2025
Contributed to responsive websites and user interface improvements. Worked with front-end technologies alongside developers on project work and cross-platform performance.

Data Analytics Intern | IBM | July-August 2024
Analyzed datasets to identify trends and generate insights. Used Excel, SQL, and Python to support data-informed decisions and create visual reports.

TECHNICAL SKILLS

Programming: Python, Java, C
Web: HTML, CSS, JavaScript, PHP, React
Data & databases: SQL, MySQL, basic DBMS, Excel
Tools & platforms: Git, GitHub, VS Code, Jupyter Notebooks, Supabase
Frameworks & concepts: MERN, Tkinter, AI/ML, Basic Machine Learning

PROJECTS

NOSTRA AI | Privacy Analyzer for Nostr | MVP
Built a FastAPI-backed MVP that analyzes publicly available Nostr profile information, events, and notes, then surfaces privacy signals for review.

BrightSteps | Interactive Learning Website | React / Vite
Created an interactive learning experience for children with Down syndrome, with learning activities and progress and parent-monitoring features. Supabase authentication is planned/integrated as part of the project.

AICA Design Thinking | College Group Project | JG University
Group project. Topic and individual contribution: Backend.

Excel Analytics Platform | MERN Stack | Zidio Development
Developed an internal Excel-style analytics platform with dynamic data visualization and user interaction.

Netflix Clone | HTML / CSS | Diploma project
Created a responsive streaming-platform interface focused on layout, visual styling, and UI design.

CERTIFICATIONS

- Data Analytics Internship | 2024
- Placement Assistance Program | 2024
- Zidio Development Internship | 2025
